Media / Filming at the bunker and around the farm.

Thank you for your enquiry about filming here at the bunker and /or using the many locations that we have on the 2000 acres that we farm here. Do let us know your story line because with our extensive local knowledge we can often find those elusive locations that we don't have.

Your first port of call will probably be our piccy library which can be found on our www.secretnuclearbunker.com Go into locations, then film companies and log in using the password filmfilm. This will give you access to piccys of not only the bunker but some of the many other locations we have which might mean you won't need to go anywhere else to complete your film.

We have quite a lot of filming here so are used to filming and all that entails and indeed, the many foibles of filmmakers. Duration of filming in the bunker has been a mere 20 minute head and shoulder to two month long epics -well they feel like epics! We can cater for your crew in the bunker canteen and are used to the long hours. We are open to the public -7 days a week in the summer- but that has and does not stop filming. As you know you spend more time 'practicing' than you do actually filming!

So we have the expertise, we have the locations, we can cater and we are flexible in our outlook. What does it cost? Well that depends on what you want to do, what disruption you are going to cause that we will have to mitigate and the timing. As a working, rule of thumb, budgeting figure we charge +- £120 per hour plus the dreaded VAT. |We do a special student rate but require a letter from the institution confirming studentship.. For your info I enclose our location agreement and useful contacts. We do recommend and encourage you to come and visit us when we can show you around and maybe find other locations which will suit you.

Our locations outside include brick bridges over lakes, lakes, ponds, woodland, tracks both hard and soft, houses, farm houses, animals, Essex Barn, barns and sheds

equipment.-such as tractors, mechanics workshop, teleporters, war trenches ww1, ww2 etc. open countryside, climbing walls, zip wires. **But most of all a desire, to find you the bits and locations you need so you don't need to move and save you money.**

A few examples are Essex Boys, S.N.U.B, Lucinda Lambtons Sublime Suburbia, Antique Road Trip, Sara Brightman, Dara O'Briain, The One Show, Great British Ghosts, Most Haunted , Long March to Freedom, Hitlers Last Days, What the Fact (BBC) He who Dares 2. World War Dead , TvS New Tricks, Lets Be Evil, Gadget Man, Genesis Aux and many many more. We have pages on You Tube and Google (not sure that is an advertisement!)

Anyway, if we have something that strikes a chord then please don't hesitate to give us a call or drop us an email. Unfortunately because some film companies have failed to pay we require payment BEFORE filming begins either by cleared cheque, Paypal, bacs or cash

ADVICE TO THE ART DEPARTMENT.

Please make sure you take photos of any room you use before you move the stuff. Also send me the piccys to mike@japarrish.com- again before you move stuff. Not just a general picture but closer up of items you are taking off shelves or tables so that you can put them back exactly as you found them. Near enough is NOT good enough. You wouldn't like me to go into your home and put stuff back wherever I thought it should be so please don't do that here. Taking things off the walls . Many are historic so please don't tear them, make holes in them , put them back in the wrong places etc. If you have a problem then talk to us don't bodge it . The direction signs are obviously important so make sure they point in the right direction and are the right numbers Please don't stick them back with tape or black gobby stuff. They fall off within a few days and make me hate you . If possible please cover them with magnolia paper or a map rather than remove them.
